EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl F. Ruoff on 01 August 2005.

The application has been amended as follows:

the phrase --; and wherein the thermal conductivity of said base cushion layer is in a range of approximately between 0.2 BTU/hr/ft/°F - 0.7 BTU/hr/ft/°F-- has been added to claim 31 after the term "100°C" on the last line of the claim, and

claims 38-40 have been canceled.

The listing of the claims filed 26 July 2005 inadvertently left off claim 40. It will now read:

Claim 40 (canceled).

2. The following is an examiner's statement of reasons for allowance.

The claims are directed to a fusing-station member comprising a substrate, an addition cured polyorganosiloxane base cushion layer containing microballoons and solid filler particles, and a protective layer as claimed. The base cushion layer has a thermal conductivity in the range of approximately between 0.2 BTU/hr/ft/°F - 0.7 BTU/hr/ft/°F.

Application/Control Number: 10/667,548

Art Unit: 1773

Meguriya is the closest prior art. However, Meguriya teach that the silicone composition has a thermal conductivity of up to 5 x 10⁻⁴ cal/cm/s/°C (i.e. ~0.12 BTU/hr/ft/°F). Meguriya does not anticipate the claims because the upper limit of 5 x 10⁻⁴ cal/cm/s/°C is outside the claimed range of approximately between 0.2 BTU/hr/ft/°F - 0.7 BTU/hr/ft/°F. Furthermore Meguriya does not fairly suggest the invention as claimed because Meguriya teaches away from formulations having a thermal conductivity above 5 x 10⁻⁴ cal/cm/s/°C.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 3. The terminal disclaimer filed on 26 July 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,486,441 or Application Serial No. 10/667,996 has been reviewed and is accepted. The terminal disclaimer has been recorded.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramsey Zacharia whose telephone number is (571) 272-1518. The examiner can normally be reached on Monday through Friday from 9 to 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney, can be reached at (571) 272-1284. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
